

**TECHNICAL SHEET**  
**LED ELK 100 12V**

*LED strip flexible 12V, 4mm*

Storage and working conditions	Temperature: -20 do + 50 C° Humidity: 30 do 70 %
Colour temperature (°K)	3000, 4000, 5000, 6500 (other colors on order)
Type of dioda	SMD 2835
Rated voltage	12 VDC / ±0,5V
Current	1.42 A/m ±10%
Output power	17 W/m ±10%
Luminous flux	2320 lm/m ±10%
Number of LEDs / linear metre	100 pcs
Dimensions (mm)	14300 / 4 / 1,5
Module length	30 mm
Predicted durability	50.000 hours
Comments	<ul style="list-style-type: none"> <li>• The product has been marked with the CE mark</li> <li>• The product designed to internal usage</li> <li>• Actual parameters may differ from those specified above depending on the power supply parameters and conditions of use</li> </ul>
