

TECHNICAL SHEET
LED STRIPS ELK 102 24V

LED strip flexible 24V, 4mm

Storage and working conditions	Temperature: -20 do + 50 C° Humidity: 30 do 70 %
Colour temperature (°K)	3000, 4000, 5000, 5700, 6500 (other colors on order)
Type of dioda	SMD 2835
Rated voltage	24 VDC / ±0,5V
Current	890 mA/m ±10%
Output power	21.3 W/m ±10%
Luminous flux	2400 lm/m ±10%
Number of LEDs / linear metre	102 pcs
Dimensions (mm)	15000 / 4 / 1,5
Module lenght	60 mm
Predicted durability	50.000 hours
Comments	<ul style="list-style-type: none"> • The product has been marked with the CE mark • The product designed to internal usage • Actual parameters may differ from those specified above depending on the power supply parameters and conditions of use
